

Accord Farmers' Searchers Fail to Find Miss Smith

Cooperative, Inc. Annual Meeting

Searchers Show Business Has Grown in Less Than Seven Years to Nearly One Hundred of a Million Dollars—Search Store to Be Opened at Ellenville About February 1.

(Official Report)

The seventh annual stockholders' meeting of the Accord Farmers' Cooperative, Inc., was held Monday, January 15, in the Methodist and Episcopal Church, Accord, N. Y.

Last year with from two to three acres of land, we had a fine attendance at this year, due largely to the weather. We had a record breaking crowd. The upper room in the Methodist Church Hall has always been large enough, heretofore, to accommodate the people for the morning session, but this time it would not hold a third of them.

Mrs. Royce Krom, G. B. Schoonmaker, Herman Coddington and a host of volunteer helpers served the Accord farmers' famous hot oyster stew. There were between 350 and 400 people served. A special kosher lunch was prepared and served to the Jewish people by A. P. Kaplan and his assistants.

In order to accommodate the crowds present the Old Fellows' hall was opened and heated for the afternoon session. Give the patrons and members of the Accord Farmers' a fair day and you will need the largest theatre in Ulster county to accommodate them. This is convincing evidence of the marvelous growth in both numbers and interest of this cooperative.

The morning session was called to order by Mr. Eppes, president, and in the chair.

The treasurer, Walter W. Voight, reported the financial conditions and the progress and growth of the cooperative in the last three years. The investments in land, buildings, and equipment of the Accord Farmers' now totals \$26,599.55. The capital stock fully paid for and outstanding totals \$50,440. The reserve fund accumulated to date equals \$5,045.53. The amount this year available for and paid out in patronage dividend was \$5,115.20. This latter amount is in addition to \$1,677.51 which was paid back to the patrons and members in 2 and 4 per cent cash discounts during 1927, on purchases as made. Along with these accomplishments \$4,180.54 was set aside for depreciation, which brings our total depreciation to date \$14,922.97. In the last nine months of 1927 our spot cash sales have been increased from 32 to 69 per cent of the total sales made, due to a special discount of 4 per cent on all spot cash sales. The total of all sales made equaled \$224,495.24 for the year.

Two large silo-coal pockets were reported purchased, paid for, and nearing completion. The unloading and elevating machinery was purchased from the Universal Road Machinery Company of Kingston. In a couple of weeks the Accord Farmers will have an up-to-date coal handling plant.

In addition to the parent warehouse and mill at Accord, the Accord Farmers have a branch at Kerhonkson and Mettacus, each of which is flourishing and steadily growing.

On or about February 1, the Accord Farmers will open their branch store at Ellenville. Already sixty farmers of Ellenville have become members and Leslie Moore was elected director for three years to represent the Ellenville members on the Accord Farmers' board of directors.

This branch store will be opened because of the persistent request of the Ellenville farmers, both Jewish and Gentile, who have subscribed and paid for in cash over a thousand shares of stock in the Accord Farmers' Cooperative, Inc.

The following men were elected directors for three years: Leslie Moore, H. M. Eppes, Walter W. Voight, John L. Schoonmaker, and George H. Osterhout.

The Accord Farmers in its first annual stockholders' meeting, January 15, 1922, reported sales to the amount of \$24,000; capital stock only \$13,000; and members less than 75. Now that our sales have reached nearly one-third of a million dollars, and our membership has gone well over 300, we have become in less than seven years one of the largest, if not the largest farmers' cooperative in the state of New York.

WALTER W. VOIGHT, Secretary.

CELEBRATE TEMPLE'S 75th ANNIVERSARY

Grade Schools' Commencement

Eighty-one pupils of the grade schools of Kingston were presented their diplomas at the fourth commencement exercises held this afternoon in the auditorium of the Kingston High School.

The following program was given by members of the graduating classes:

California March.....Ascher
Grade School Orchestra
Recitation, "Lawrence's Little Girl"
Anna L. Whitbeck, School No. 4
Recitation, "A Tragedy of the Sea"
Hugo

John Albert Kwant, School No. 7
Song, "Star of Home"
Chorus by Graceland Class
Recitation, "Just a Job"
Edgar Givert
Veronica Van Aken, School No. 3
Recitation, "Young Lucifer"
With Andrew

Beatrice Bahrke, School No. 2
Recitation, "The Little Girl"
T. A. Daly
Irving Bell, School No. 5
Lola Wainwright, School No. 4
Grade School Orchestra
Recitation, "The Little Girl"
George C. Kent, School No. 4
Recitation, "The Little Girl"
C. F. Raymond

Anna M. Powers, School No. 5
Presentation—Diplomas
A. H. Jennings
President of the Board of Education
A. M. J. of National Arts
Grade School Orchestra

The graduates:
Those who graduated were:
School No. 1—Abraham, Helen; Baumgartner, Beatrice; Brennan, Anna; Carter, Douglas M.; Cassman, Pauline J.; Ennis, Fred J.; Haas, Mildred; John J.; Kearney, Eleanor M.; Kishner, John J.; O'Connor, Margaret L.; Porter, Viola M.; Runkle, Robert.

School No. 2—Ben, Irving; Burns, Kathleen; Epstein, Edith; Goldman, Esther L.; Gallop, Oscar; Marcus, Benjamin; Spitzer, Frank.
School No. 3—Katz, Henrietta H.; Kent, George C.; Kraus, Helen E.; Nickerson, Ruth E.; Ogg, John T.; Pallen, Ella M.; Perry, William J.; Williams, Virginia H.

School No. 4—Bosa, Vera E.; Cole, Richard J.; Deyo, Reginald B.; Poline, Spencer M.; Foss, Evelyn M.; Herwig, Warren L.; Jones, Joseph; Manning, John W.; Parlan, Regina E.; Post, Kenneth C.; Powers, Anna M.; Proctor, John R.; Purvis, Robert M.; Sleight, Bertha E.; Sussan, William M.; Ticefield, Estella B.

School No. 5—Brown, David P.; Cerasaro, Susie M.; Coons, Harold; Cole, Aleta G.; Cross, Marjorie G.; Felten, Robert; Galvin, Marie C.; Kuehn, William; Mellow, Earl; Neburn, Gladys; Palisi, Grace E.; Quirk, Clifford; Shultz, Marie A.; Tongue, Rubie B.; Van Gaasbeck, D. E.; Whitbeck, Anna L.

School No. 6—Burgerin, Frances; Kwant, John Albert; Mann, James; Schwabach, William J.; Smith, William Harold; Sprack, Harry; Townsend, Alfred; Warren, Stanton A.; Zucca, Donald.

School No. 7—Brink, Julia F.; Bunting, Harold G.; Coffin, M. Lucille; Ellsworth, Ethel H.; France, Nellie V.; Lampman, Rosamond; Locke, Miller F.; Miller, Evelyn M.; Myers, Spencer E.; Roberts, Sidney D.; Schoonmaker, M. D.; Swann, Leonard V.; Van Aken, Veronica.

INTERURTS WEDDING TRIP
TO SWEAR IN AS LAWYER

Edward Schine, son of Mr. and Mrs. Harry Schine of Bridgeport, Conn., and nephew of Mr. and Mrs. Hyman Leventhal of this city, was one of the 16 candidates who recently passed the examinations for admission to the Connecticut bar.

Schine who was duly sworn in at Hartford on Tuesday, is well known in this city, being a frequent visitor here, and with his parents spends the summers here.

He first received word of his success in passing the bar examination while on a honeymoon trip in Atlantic City. Immediately after taking the examination Schine took as his bride Miss Ruth Sovrensky of Brookline, Mass. Upon learning of his success he immediately returned to Connecticut to be sworn in and then with his wife continued on the wedding trip.

Edward Schine is a graduate of Boston University and was prominent in inter-fraternity circles at the Boston institution. He graduated from the academic department of the Boston University Law School in June, 1927.

Upon his return from the wedding trip he will open up a law office in Bridgeport.

Dr. Chamberlain to Preach

Owing to the illness of the pastor, Dr. Seelye, the pulpit of the Fair Street Reformed Church will be occupied Sunday morning by the Rev. William L. Chamberlain of New York. Dr. Chamberlain is the foremost preacher of the denomination and the Fair Street Church is very fortunate in being able to have him for the preacher Sunday. His host of friends in the church are looking forward to hearing him once again.

A Still Alarm

A still alarm called the firemen at 3 o'clock Thursday afternoon to 203 Manor avenue where they extinguished a fire on the roof of the house of Homer J. Enrick.

Court of Appeals Reopens

Albany, Jan. 20 (AP)—The court of appeals today recessed until Monday, February 19.

Chaufeur Held In Murder Plot

Frederick W. Enwright, Newspaper Publisher, Tells Sensational Story of a Plot Against His Life.

LYNN, Mass., Jan. 20 (AP)—The private chauffeur of Frederick W. Enwright, Boston, and Lynn newspaper publisher, was held today under charges of assault with intent to murder, kidnapping and attempted blackmail and extortion, while police investigated the sensational story told by the newspaperman of a plot against his life and the safety of his wife and daughter.

Frederick S. Dutton was the man under arrest. Three others were sought, including a former Enwright employee who with the others was alleged to have forced the publisher at gun point to agree to a temporary truce in consideration of an immediate payment of \$1,000.

The name of the former employee, a columnist on a now defunct paper formerly published by Enwright at Boston, was not revealed by police.

The two others were known only as "Cannonball" and "Snake". Enwright said the men told him they had been hired for \$25,000 to murder him.

The meeting occurred at a lonely shack in Nahant. Enwright told the police that just before leaving home yesterday morning for his Boston office, he noticed an expensive coupe draw up near the house. A few minutes later Dutton, who has been in his employ three years, reported and they started for Boston.

Jumped on Running Board

The chauffeur failed to take the usual route, going instead by a road near that leading to Nahant. On their way, the coupe crowded the Enwright car to the curb and the former employee jumped on the running board and then took a seat beside the publisher.

He drew a revolver and poked it against Enwright's ribs and said to the chauffeur, "Go to the place we agreed upon." Dutton, Enwright declared, sprang over the road to Nahant, finally drawing up at a deserted shack.

There "Cannonball" and "Snake" were waiting and there were ropes and a gag inside of the place. "Well," Enwright asserted the former employee said, "You owe me plenty of money and I'm going to get it all back. We are going to get \$25,000 for knocking you off. After we kill you we're going to weigh your body and drop it in the bay. They'll never find you."

"Then we're going to grab your daughter and hold her for ransom," Eleanor Enwright is 19 years old.

Promised to Obtain Cash

The publisher persuaded the men to desert and to accept \$1,000 which he promised to obtain in Boston at the office of the Boston Sunday Telegram-News. He said the former employee weakened but Dutton was with difficulty persuaded to let him go. "Let's bump him off anyway," said the chauffeur, but the other man prevailed.

All five returned to Boston. One kept the revolver at Enwright's heart and although he attempted to attract the attention of several traffic policemen while passing through Chelsea they failed to notice him.

At the Boston office of the newspaper, Enwright prevailed upon the former employee to accept the money by general delivery mail.

Enwright Notifies Police

Shortly after he emerged to find the other three gone and the chauffeur alone in the car. They drove back here to the office of the Lynn Telegram where Enwright dismissed Dutton and called the home of Deputy Superintendent of Police Callahan. He told Callahan he feared to leave the building. Callahan directed him to meet him at his home and Enwright called a taxi and drove to his own home, where he told the story to his wife and daughter. Both accompanied him to Callahan's where, in the presence of two police inspectors, he repeated his statements.

Dutton was arrested and emphatically denied that anything unusual had happened. He said the former columnist had previously threatened Enwright but denied they had met him that day.

Hartnett Hurt In Auto Mishap

New York, Jan. 20 (AP)—Shortly after leaving a conference of motor vehicle administrators from thirteen eastern states, Commissioner Charles A. Hartnett of the New York state bureau of motor vehicles, was seriously injured early today in an automobile collision.

Hartnett was in a taxicab with his secretary, William White, when their machine was struck by another car. A large piece of glass struck the commissioner on the left temple and below the left eye. At Bellevue Hospital it was said he may lose the sight of the eye. He was the only one hurt.

Werrenath Concert Tickets

The attention of the public is called to the fact that the box office for reserve seats for the concert by Reinhold Werrenath and the Schubert Choral Club of the Y. W. C. A. will be open at 9:30 on Monday, January 23, at the Y. W. C. A., 14 Henry street. All tickets purchased in advance should be exchanged sometime during the week, January 23-January 30.

Irish Free State President Here

Congrave Declares Ireland Is Going Forward and Is More Practical Than Ever Before in Her History—Supporters of Opposition Party Ejected From History Park

New York, Jan. 20 (AP)—With postcard-bearing supporters of the opposition party ejected from History Park by police to avoid possible disorder, President William T. Cosgrave of the Irish Free State stepped onto American soil today.

Three thousand police had been marshaled along the line of march to city hall where Mayor Walker wanted to greet the visiting president on the name of our 6,000,000 people, a large proportion of them from your own Emerald Isle.

The postcard-bearing supporters shortly before the city for Mayor with the Irish president and the mayor's welcoming committee landed. Three men and a woman marched into the park bearing giant placards when they had great difficulty holding up in the gusty wind.

The placards read: "Who is crushing Ireland with debt and taxes—Cosgrave." "Who murdered Irish patriots—Cosgrave." "Who hates Republic—Cosgrave." and "Who is the real head of Cosgrave's Irish Free State—King George the Fifth."

Police descended on the four and demanded their passes. The placard bearers said they had no passes but were members of the De Valera Party and wished to voice their protest. They were ushered from the park on their way passing a woman holding high above her head a Union Jack.

The only sign of opposition to the visitor during the moments preceding his landing was the distribution of pamphlets at subway by a group of women who said they were supporters of the Irish Republic. The pamphlets were denunciatory of Cosgrave. The women were not molested.

Congrave Opens Interview

Aboard the Macon, Mr. Cosgrave was led along the path followed by a host of other celebrities and into the cabin of the vessel where two score interviewers awaited him.

He opened the interview himself. "This is the first time," he said, "that the head of my country has come to see your country. This is a visit of good will and admiration for your great country and to thank you for all that you have done and for your sympathy and for the opportunities you have afforded our people coming to your free country."

"Well, how is old Ireland?" he was asked. "When I left her, she was very fine," he replied. "She is not standing still; she is going forward."

"In the past five years," he said, "we have built a hundred new factories in Ireland. The unemployment situation is improving, and Ireland is more peaceful than ever before in her history."

"I am a man of peace," he replied to a question whether he enjoyed better the present reign of peace or the old days of fighting.

He declined to discuss the relative positions of himself and Eamon De Valera in Irish politics. Once the two were allies, but a rift made them political opponents.

"I am here as a representative of all the people of our state," he said. "It is an accident that Mr. De Valera and I happen to be in America at the same time."

About the relations between Ireland and England, he said, he "could write an article." "Whether Ireland will ever be a complete republic," he said, "is a matter for the people of Ireland, not for me to predict."

Outside the cabin the welcoming cascading streams of fireworks were flashing in the sun. The echo of a nineteen-gun salute from the army post on Governor's Island boomed across the bay and the strains of harbor craft shrieked their greeting.

"I don't know whether I'll be given a chance to see your Governor Smith today or whether I must wait until we come back from Washington," he said.

THREE VENTILATORS PLACED IN ARMORY

One of the most important improvements about town in some time, in point of comfort, is the installation of three ventilators in the roof of the armory. Heretofore, boxing fans, after attending a bout, took home with them to their families a fragrance somewhat like that of smoked herring. With the ventilators now put in operation, Major O. R. Hildebrand believes that commencing with the show next Monday night all fans may smoke to their heart's content with all the smoke disappearing through the ventilators in the roof. This will be welcome news to many boxing spectators who enjoy fresh air with their fighting.

Our Growing Population

The following births have been reported to the board of health: Mr. and Mrs. Mosser Hoffman, High Falls, a son, George John, at City of Kingston Hospital.

Mr. and Mrs. Jack R. O'Neill, 784 Broadway, a daughter, Mary Donna Jean, at Beneficent Hospital.

Mr. and Mrs. Albert Neek, 51 Summer street, a son, William Richard, at Beneficent Hospital.

No Arrests Thursday

Senate Excludes Frank L. Smith

Republican Senator Elected From Illinois Elected By 61 to 28 Vote—Only The Most Rigid Republican Supported Him

Washington, Jan. 20 (AP)—The Senate vote was definitely closed today to Frank L. Smith, Republican senator elected from Illinois. They were today carried yesterday by a 61 to 28 vote that declared his seat vacant after the Senate for the second time voted to reject against giving him the oath of office.

The exclusion vote, which came after three days of debate, was on adoption of a special committee's resolution declaring his credentials tainted with fraud and corruption.

Because of his long record of fraud, corruption and other crimes, the Senate today voted to exclude Smith. The resolution's specific charges against Smith were that he was not eligible to being in the Senate because his campaign funds included more than \$100,000 given by Samuel Insull of Chicago, and other public utilities officials, some of whom were not residents of that state.

As the Senate established a precedent by excluding Smith without first permitting him to take the oath of office, the senator-elect found only the most rigid Republicans supporting his claim to a seat. Two Democrats joined them, Sen. Charles McNary of Oregon, and Sen. Charles McNary of Oregon, and Sen. Charles McNary of Oregon.

Thirty-nine Democrats and Shipstead of Minnesota, the Farmer-Labor member, voted to exclude Smith.

As the situation stood today, with Illinois having only one representative in the Senate, some senators believed the way was open to Governor Small of Illinois to appoint another man, but Smith's legal advisers contended that the governor could not appoint unless their client resigned. It has been assumed that Smith would not resign but would await the opening of the next Congress in December 1929, when one-third of the membership will have been up for re-election.

Marines Probing Death of Sandino

Managua, Nic., Jan. 20 (AP)—American marines feared today that reports of the death of the rebel General Augustino Sandino might be a ruse.

Around his mountain stronghold of El Chipote, the only evidence of death and desolation.

Sandino, if alive, it was believed could have fled through the jungles to Honduras or down the Coco river to the Caribbean. Since the Honduran government promised to allow no concentration of rebels on Honduran soil, it was believed that Sandino might be heading for the sea.

The marine garrison at San Rafael was ordered to investigate immediately any bar of prominent men there. The Nicaraguans, who reported Sandino's death to marine headquarters, said the general's wife, a government telegraph operator at San Rafael, took his body there for burial. Aviators observed what appeared to be a funeral procession.

Aviators who flew over El Chipote said doors of houses stood ajar or banged listlessly to and fro. No rebels were to be seen around the mountain. Roads leading to the northward toward Honduras showed signs of recent heavy travel. Vultures—black symbols of death—flew over the deserted stronghold.

French Reply to Kellogg Note

Paris, Jan. 20 (AP)—The text of the French reply to Secretary Kellogg's latest note on the proposed treaty to outlaw war will be forwarded to Washington today, it was stated after a cabinet meeting at which the final text was approved.

It is understood that the new note will contain a full explanation as to why the French government desires that the word aggression be used to describe the type of war to be outlawed.

Foreign Minister Briand recalls France's obligations as a member of the League of Nations. He points out how a solemn resolution to never make war is possible between United States and France without qualification, but how, when extended to other countries, it involves complications.

Longyear Goes To Chicago

Ralph V. Longyear, son of Mr. and Mrs. William A. Longyear, has been transferred from the New York office of the Turner Construction Company to Chicago, where he will have charge of buying material for a large contract. He is a graduate of Kingston High School and received his diploma as an architect last June.

St. John's Cake Sale

On Saturday afternoon, beginning at 2 o'clock, the members of the Women's Auxiliary of St. John's Episcopal Church will hold a food sale of home-made food supplies at the Van Wageningen store on Wall street. They ask the generous patronage of their friends.

Kingston Coop. Savings and Loan Assoc'n Growth

Directors Entertained by Secretary and Treasurer—Interesting Historical Review of Activities Given by Arthur O. Connolly—Further Development Outlined by State Secretary Plant

Reminiscences, anecdotes, information and suggestions were mingled most pleasantly in the talk that followed a dinner at the Governor's Hotel Thursday evening at which the directors of the Kingston Cooperative Savings and Loan Association were entertained as guests of Arthur O. Connolly, attorney and secretary, and S. J. Vredenburg, Jr., treasurer of that institution. This was the first in a series of such luncheon conversations that the directors and the quality of the dinner and the speeches that made up the program.

In addition to the present members, Dr. H. H. Loughran, first president, and John H. Gregory, an early president of the association, were among the guests.

After the dinner Mr. Connolly welcomed the guests and introduced George A. Plant, secretary of the New York State League of Building and Loan Associations, as the first and principal speaker of the evening. Mr. Plant outlined the rise and growth of building and loan associations from 40 years ago when there was none to the present time when there are 314 in this state and 12,000 in the United States, with 11,250,000 members and \$7,000,000,000 of resources. The so-called national associations, organized and conducted for profit and none too wisely, created a bad impression in the early days and it is only recently that this bad impression has ceased to handicap the operations of the genuine cooperative and safely managed associations. Progress has been most rapid since 1919.

Enlarged Activity Planned

The plans and purposes of Thrift Week were outlined by Mr. Plant and a brief outline given of new legislation that is being sought to enable building and loan associations to accept school savings, to invest in the stock of one another, to maintain branches for the collection of dues, to take out group insurance, to effect mergers and to be legalized as investments for trust funds. Bills for the three last named objects have been introduced by Senator Wicks.

During the discussion that followed Mr. Plant's talk the surprising fact was made known that while banks loan up to two-thirds of value and savings and loan associations to a higher percentage, owing to the fact that the process of amortization begins at once on a savings and loan mortgage, the average of all savings and loan loans is only 45 per cent of the value of all the property on which the association holds mortgages.

History of Organization

Mr. Connolly gave a history of the organization and growth of the Kingston Cooperative Savings and Loan Association, of which the following is an outline:

Incorporated under laws of 1857, organized February 6, 1852, by E. H. Loughran, Edward T. Walker, Jr., Edward T. Stille, Alonzo E. Pye, Peter Meester, Frank A. Pallen, William M. Cooper, George E. Hoffman, William C. Preston, Emerson Barlow, Andrew F. Mason, Artemus S. Walker, John A. Gaul, Jacob D. Wurts and George W. Vredenburg.

Of the above named two are still directors in the Association and have been such continuously since the incorporation: E. T. Stille and G. W. Vredenburg.

First meeting was held February 19, 1852, at the office of George C. Preston & Son, 80 Fair street and elected E. H. Loughran, president, A. E. Pye, vice-president, W. C. Preston, treasurer, and E. B. Walker, secretary and attorney. Directors, Stille, Meester, Mason, Hoffman, Gaul, Wurts, Vredenburg, Cooper and Pallen.

On February 20, 1852, by-laws were adopted.

On September 15, Mr. Walker resigned as secretary and Everett Fowler was elected in his place. On December 23d, Mr. Fowler resigned and a committee was appointed to find a candidate for secretary and on December 31st, H. Gould Smith was appointed secretary (to term and served at each meeting) until February 3rd, 1853, when Daniel B. Deyo was elected to serve as secretary.

The next annual meeting was held at the Supreme court chambers on March 17, 1853, and elected John H. Gregory, president, E. T. Stille, vice-president, William C. Preston, treasurer and D. B. Deyo, secretary. The directors were Levi Roscoe, James J. Decker, Peter Meester, Wurts, Cooper, Mason, Edward Marcheson, Vredenburg and Pallen.

On March 24, Mr. Deyo resigned as secretary and A. C. Connolly was elected a director. He has since been re-elected a director, his salary being fixed at \$50 a year and on April 15 he was also elected attorney for the association and has served in that capacity also until 1927 when the law firm of Fowler & Connolly were elected attorneys for the association.

Annual report (H. Gould Smith). On May 1, 1923 a dividend, being the first, at 4 1/2 per cent was declared.

There was frequently no demand for loans.

In August 1897 William C. Preston was elected president.

Accord Farmers' Searchers Fail to Find Miss Smith

Cooperative, Inc. Annual Meeting

Searchers Show Business Has Grown in Less Than Seven Years to Nearly One Hundred of a Million Dollars—Search Store to Be Opened at Ellenville About February 1.

(Official Report)

The seventh annual stockholders' meeting of the Accord Farmers' Cooperative, Inc., was held Monday, January 15, in the Methodist and Episcopal Church, Accord, N. Y.

Last year with from two to three acres of land, we had a fine attendance at this year, due largely to the weather. We had a record breaking crowd. The upper room in the Methodist Church Hall has always been large enough, heretofore, to accommodate the people for the morning session, but this time it would not hold a third of them.

Mrs. Royce Krom, G. B. Schoonmaker, Herman Coddington and a host of volunteer helpers served the Accord farmers' famous hot oyster stew. There were between 350 and 400 people served. A special kosher lunch was prepared and served to the Jewish people by A. P. Kaplan and his assistants.

In order to accommodate the crowds present the Old Fellows' hall was opened and heated for the afternoon session. Give the patrons and members of the Accord Farmers' a fair day and you will need the largest theatre in Ulster county to accommodate them. This is convincing evidence of the marvelous growth in both numbers and interest of this cooperative.

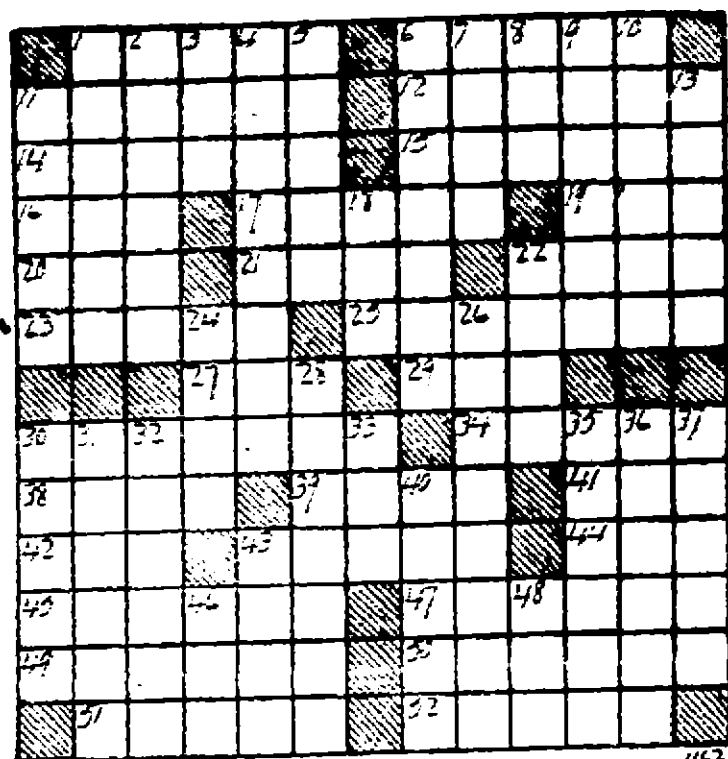

The morning session was called to order by Mr. Eppes, president, and in the chair.

The treasurer, Walter W. Voight, reported the financial conditions and the progress and growth of the cooperative in the last three years. The investments in land, buildings, and equipment of the Accord Farmers' now totals \$26,599.55. The capital stock fully paid for and outstanding totals \$50,440. The reserve fund accumulated to date equals \$5,045.53. The amount this year available for and paid out in patronage dividend was \$5,115.20. This latter amount is in addition to \$1,677.51 which was paid back to the patrons and members in 2 and 4 per cent cash discounts during 1927, on purchases as made. Along with these accomplishments \$4,180.54 was set aside for depreciation, which brings our total depreciation to date \$14,922.97. In the last nine months of 1927 our spot cash sales have been increased from 32 to 69 per cent of the total sales made, due to a special discount of 4 per cent on all spot cash sales. The total of all sales made equaled \$224,495.24 for the year.

Two large silo-coal pockets were reported purchased, paid for, and nearing completion. The unloading and elevating machinery was purchased from the Universal Road Machinery Company of Kingston. In a couple of weeks

High School Honor Roll

Following is the classification of Kingston High School pupils, the grades being taken from the recent report cards of January 6. The number adjoining the pupil's name indicates the subject carried:

All marks 95 per cent and above classified as highest honor students.

Stevens, Ruth M., 4, and Thomas, Howard A., 4.

All marks 90 per cent and above classified as high honor students.

Almelt, Helen L., 4.

Brown, Homer, 4.

Calderwood, Gertrude, 4; Cranston, Harriet F., 4.

Davis, Harold F., 5.

Gulick, Sarah, 4.

Healy, Mildred, 5; Heavey, Kathryn L., 5; Hopper, Maude, 4.

Johnston, Helen, 4.

Kinney, John, 4; Kline, Sylvia J., 4.

Leecraft, Florence, 3.

Matthews, Frank, 4.

Quimby, Alma, 4; Schumacher, William A., 4; Service, Margaret, 4; Straub, Gilbert, 4.

Van Demark, Gladys, 4.

All marks 85 per cent and above classified as honor students.

Alex, Jerome A., 4.

DRY BROOK.

Dry Brook, Jan. 19.—Mrs. O. D. Baker was called to the home of her sister, Mrs. Lawrence Weber, of Arkville, Thursday. Mr. Weber was to undergo a slight operation.

The little daughter of Mr. and Mrs. M. Foyth was quite ill the first of the week.

Mr. Wrenovics, who lives on the Jay Avery farm, lost a valuable cow last week.

Leroy Todd lost a valuable cow recently.

Mrs. Rose Utter is visiting friends in this place.

Cecil Graham is under a physician's care. He fell while hauling wood last week.

Amos Meade and Linden Ackery

of Arkville passed through this place Sunday on their way to New York.

Mrs. John Haynes gave a covered luncheon Wednesday and some of the guests were for the church fair.

Mrs. Claude Harney gave a luncheon Thursday to arrange for church work.

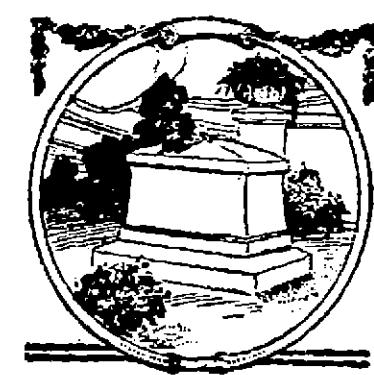

Raymond George has been working in Winchell's saw mill.

Heat Regulation

Automatic heat regulation eliminates excessive fluctuations in temperature. Whatever the outside degree of cold, you can maintain your home at an even, comfortable temperature.

Monuments at a Worthwhile Saving

THAT monument that you will have erected this spring can be purchased now at a big reduction.

Our Reason For This Big Reduction

As we are manufacturers and employ a number of men we must give these men employment during our slack winter period and are willing to sacrifice profit that we might keep our plant operating during this dull season.

Why You Should Place Your Order With Us Now

CARVING AND LETTERING WILL ALWAYS REMAIN LEGIBLE WHEN CARVED BY OUR NEW SAND BLAST METHOD.

1. Being Manufacturers you can buy through our one profit method of distribution—DIRECT FROM MANUFACTURER.

2. You avoid the spring rush and are assured of a better choice from a larger selection NOW than will be possible after so many have selected their Family Memorial in the spring.

3. We will have more time to devote to the construction of this very important work of memory.

4. You can take advantage of these discounts by placing your order NOW to be constructed during the winter and set in the spring.

OVER 200 BEAUTIFULLY FINISHED MONUMENTS IN STOCK FOR YOUR SELECTION.

BYRNE BROTHERS

Kingston, N. Y.

STONE RIDGE.

Stone Ridge, Jan. 19.—The Sunday school board and official board of the M. E. Church will hold their monthly business meetings in the parsonage Friday night. The Sunday school board will meet promptly at 7:15 and official board at 8 o'clock.

The Queen Esther Society of the M. E. Church will hold its meeting on Saturday afternoon at 2 o'clock in the parsonage. Mrs. Roscoe Lockwood will be in charge of this meeting. The new officers for the year are: president, Thelma Davis; vice-president, Mary Bloom; secretary, Margaret Eleanore; treasurer, Vivian Brown.

Rev. Ransom and infant daughter, Florence Marie, are home from the hospital and doing nicely. The Sunday school of the M. E. Church will meet at 9:45 Sunday morning with Miss Dorothy Palen in charge of the worship period. At 11 o'clock the Rev. Jay Holmes

Smith will bring a 10 minute object lesson for all the children. After this he will preach from "Power From On High." The choir has prepared special music.

The choir of the M. E. Church met at the home of Mrs. Ed. Muller, Jr., on Tuesday night. Gladys Ford, who is choir director and pianist, was in charge. A good time was enjoyed by those present.

The Parent-Teacher Association will meet at the school house at 2 o'clock on Friday afternoon. Mrs. Arthur Russell of Kingston will be the speaker. She will bring some up-to-date ideas from the state convention held at Binghamton last fall. All members and friends are urged to be present.

The regular Sunday services will be held at the Reformed Church. The Rev. C. Van Tol will announce his subject later. Sunday school will meet at 11:45 o'clock with L. D. Sahler in charge. The subject for study will be, "Jesus and the Law." Mark 2:13-22; 3:1-6. At 7 o'clock the Christian Endeavor will meet. L. D. Sahler will be the leader. The topic is "What Difference Does It Make? What We Do On Sunday?" Charles Hasbrouck spent the week end at his home and has returned to Tuxedo Park.

At 7:30 o'clock on Friday evening the choir of the Reformed Church will meet at the parsonage for weekly practice. Every member of the choir is urged to be present.

The community service will be held in the M. E. Church this week on Sunday evening at 8 o'clock. The Rev. C. Van Tol of the Reformed Church, will be the speaker and the service will be in charge of the Rev. J. H. Smith of the M. E. Church.

The men of the Reformed Church have been busy renovating and repairing the church basement in preparation for the men's dinner of the Classis of Ulster.

OLIVERIA.

Oliveria, Jan. 19.—Mrs. Ernie Tomes and son, Harvey, spent a few days last week at P. J. Burnham's.

Mr. and Mrs. W. J. Andrews are spending the week at Freeport.

The Rev. Mr. Coffy, pastor of the Baptist Church at Phoenixia, preached an able sermon in the Methodist Episcopal Church here Sunday.

Mrs. Lawrence Dutcher is on a visit with her parents in Brooklyn. In a few days she expects to accompany her mother on a trip to Arizona.

Mrs. Maggie Thompson and son, Ralph, of Pine Hill are spending some time with Mrs. Thompson's brother, Lawrence Dutcher, in this place.

Krumville Church Service.

The Rev. Thomas S. Brattwaite will officiate at the services in the Krumville Reformed Church Sunday at 11 a. m. Theme of the service will be a continuation of last Sunday's topic, "Can We Love God, and How?" All are invited and members of the congregation urged to bring their friends. The following Sunday will be observed as People's Day.

6% DIVIDENDS have been paid by the Home-Savings and Loan Association for over 10 years. Now is the time to subscribe for shares in the new series. List at the office, No. 2 EAST STRAND.

VICKS VAPOR
Over 17 Million Jars Used Yearly

Are You Nervous, Run Down, Weak?

To have "pep" and ambition, and the ability to do a big day's work and feel "like a two year old" at night, you must eat three good meals a day, relish your food and properly digest it. If you can't eat, can't sleep, can't work, just take a teaspoonful of Tanlac three times a day before meals.

Mrs. Harriett Grimes of 31 Shields Ave., Buffalo, N. Y., writes us: "My appetite and digestion were all upset. I was tormented with headaches and dizzy spells. My daughter advised me to take Tanlac. Now I feel so fine that I can sweep, clean or cook all day."

Tanlac is wonderful for indigestion and constipation—gas, pain, nervousness and headaches. It brings back your appetite, helps you digest your food, and gain strength and weight. It contains no mineral drugs; it is made of roots, herbs and salts, nature's own medicines for the sick. The cost is less than 2 cents a dose. Get a bottle from your druggist and give it a thorough trial. Your money back if it doesn't help you.

Tanlac

Kingston, N. Y.

Kingston Coop. Assoc'n Growth

(Continued from Page One)

As treasurer and A. K. Hart as secretary and served until January 1, 1927.

On December 1, 1927, the Association office was moved to the office of the secretary at 32 Main street.

Mr. Hume elected director March 1, 1927.

March 17, 1927, E. T. Stelle, who has served since his first election as president, was elected president and John H. Gregory, vice-president.

Thodore Brink was elected director March 16, 1927, and at this time the secretary's salary was fixed at \$200 a year and the treasurer's at \$100.

At this time, the monthly receipts of the association were approximately \$500.

E. O. Van Aken was elected a director on March 17, 1927.

William A. Frey on March 15, 1927.

Charles B. Everett on January 3, 1927.

R. D. Scudder, Jr. on January 7, 1927.

An off recurring motion recorded in the minutes, at the annual meeting, was as follows: "Moved and seconded, that the salaries of the secretary and treasurer be fixed the same as last year" but in January, 1928, the secretary was voted the sum of \$400 and the treasurer \$150 a year.

E. F. Flanagan was elected a director January 7, 1927, and Arthur J. Burns on January 2, 1927, at which time also Mr. Scudder was elected treasurer and has been serving continuously as such to the present time, being now in his sixth year of continuous service.

H. C. Van Buren was elected a director January 4, 1927, and C. H. Buchholz on January 4, 1927.

Our receipts now average about \$20,000 a month, and for the month of January, 1928, they exceeded \$25,000.

We have on our books now 274 borrowers, that is to say that at least 274 families are now working and saving to pay for their homes, so that they may become home-owners, their efforts being fully seconded and financed by this association, a work second to none in the upbuilding of our city and the development of character and self-respecting citizenship.

Our total assets on January 1, 1927, were \$606,368.83 and on January 1, 1928, they were \$791,809.12, a gain for the year of \$185,433.12.

The total number of shares now outstanding is in excess of 19,000, showing that many of our friends and neighbors are making use of the association not only to finance their homes but also to cultivate the saving habit by adopting our systematic monthly payment plan, and they are thereby making their money work for them at the rate of 5 1/2 per cent, compounded semi-annually, which must be conceded is a very ample return when coupled with the complete safety with which their money

is protected and the facility with which they may withdraw their deposits at any time, as liquid an investment as could be desired by any one and still paying large returns.

Banks Now Cooperative.

Dr. E. H. Loughran, first president of the association, spoke of the change in sentiment as the workings of the organization became better known. When it was organized the banks regarded it as a rival and were opposed to such an extent that he being a bank official at the time, was severely criticized that he had to resign the presidency of the association. Now the banks regard the association as an associate and work with it in harmony.

John H. Gregory, another former president, spoke briefly and in his usual humorous vein.

Senator Wicks Sponsors Bills.

Senator Wicks, asked to state how he stood in regard to the legislation sought, said he must be in favor of it as he had introduced three of the bills.

Judge Fowler spoke briefly and feelingly of his method of coming to the aid of the association and making it prosperous and President D. N. Matthews of the State of New York Bank congratulated the association on its success.

Mr. Scudder boasted of having in his family the youngest member of the association, Patricia Ann Scudder, born July 4, and made a member of the association on the same day.

On the question of the safety of investment in the stock of the association, Mr. Connelly stated that

in 25 years there had been five foreclosures and of these two were to settle title and divide property in the simplest manner, one was in a case where the mortgagor had absconded and only two were brought about in the usual way.

E. T. Stelle, for 31 years president of the association, spoke of the enormous monetary profit he had reaped from his activities, he having collected in payment for his services during that time \$16.

Guests Present.

Those present as guests of Mr. Connelly and Mr. Scudder were D. N. Matthews, Senator Arthur H. Wicks, George A. Plant, E. T. Stelle, Dr. E. H. Loughran, Russell P. Clayton, John H. Gregory, William A. Frey, C. Hume, Judge Joseph M. Fowler, Charles H. Buchholz, Ray VanBuren, E. Frank Flanagan, Arthur J. Burns and Charles B. Everett.

Holy Cross Card Party.

The members of the Woman's Auxiliary of Holy Cross Church will give a card party Tuesday afternoon January 24, at the parish house, Pine Grove avenue. The public is invited to attend the games which will start at 2 o'clock. There will be prizes and refreshments.

DuBois in Middlebury Glee Club.

Millard DuBois of this city, who is a student at Middlebury, Vermont, has joined the Middlebury College Glee Club, which will go on a concert tour in the southern part of Vermont the first of February.

IMPRESSIVE MEETING OF ROSENDALE GRANGE.

The recent meeting of Rosendale Grange, No. 1461 at which nineteen members were received, was a very impressive one. Master Rosa Osterhout of the Stone Ridge Grange and his assistants conducted the reception ceremonies in a most admirable manner and brought out the full worth and beauty contained in them. The ritualistic work was closed by Mrs. C. C. Hardenbergh, worthy chaplain, and the meeting was then turned over to Worthy Master C. J. Lefever, Jr., who brought the meeting to a close. The remainder of the time was taken up by entertainment. Mrs. Arthur Merrihew, assisted by Henry Mollenhauer, pleased with many amusing anecdotes and a recitation by Ross Osterhout, entitled, "Casey at the Bat" brought much applause. The Stone Ridge sang very admirably. The serving of refreshments brought the evening, which will be a memorable one, to a close. The next meeting of Rosendale Grange will be held Monday evening, January 22. It is hoped that all members will be present.

Jewels of Egyptians

From earliest time through all Egyptian history are found the lapis lazuli, turquoise, garnet and carnelian. Dating from about 2400 B. C., other stones high in favor were amethyst, agate, emerald and tourmaline.

LOS ANGELES SEEKS NEW KIDNAPER

Pence are scouring Los Angeles and vicinity for a man who lured 11-year-old Audrey Cross into Laurel Canyon and there assaulted her. The child finally escaped. The girl is seen with her parents, Mr. and Mrs. Thomas A. Cross.

Judge Cochrane Surprised Friends

Hudson Jurist Kept His Contemplated Retirement Virtually a Secret Until His Resignation Was Filed—Twenty-two Years on Supreme Court Bench.

Nearly half a century of state and national legal and political life ended for Supreme Court Justice Aaron V. Cochrane of Hudson, Wednesday when his resignation from the appellate division, of which he was the presiding officer, was announced. Justice Cochrane plans to travel.

Justice Cochrane, who is nearly seventy, has kept his contemplated retirement virtually a secret and the formal announcement was a surprise to friends and colleagues.

Among those who hastened to pay their respects to him were Judges Frederick C. Crane and Henry T. Kellogg of the court of appeals, who visited him in his chambers at the court. Other members of the county and state judiciary and members of the Albany county bar called during the day.

"I am retiring to gratify a lifelong desire to travel," Justice Cochrane said. "Pressing duties of half a lifetime in public life have prevented me from indulging in my desire to see the world. I will start in February, probably south, although I have no definite goal. I will just travel."

A walking stick was presented to Justice Cochrane by his fellow members of the bench. Justice Charles C. Van Kirk, in a presentation speech, lauded the long service of Justice Cochrane and extended the best wishes of the remaining members of the court.

Justice Cochrane was born March 14, 1858, the son of Francis Cochrane and Barbara Van Schaick Cochrane of Coxsack, and passed his early youth in Greene county. He attended the Hudson River Institute at Claverack and was graduated from Yale University in 1879.

Soon after his graduation, he began the practice of law at Hudson. He married Margaret M. Hawver and has two children, Mrs. Margaret C. Ferris of Hudson, and Francis A. Cochrane of Albany, correspondent for the Bankers' Trust Company of New York city.

Justice Cochrane was first elected to public office as police court judge of Hudson. He served one term and was elected district attorney of Columbia county, later representing his district in congress for four years.

His first service on the Supreme court bench, with which he was connected twenty-two years, was in 1902. After serving until 1906, he was appointed associate justice of the appellate division, third department which he held until December 31, 1910. He has been in the appellate division since his reappointment in January, 1915, and was appointed presiding justice in January, 1922.

At various times Judge Cochrane presided over trial terms of the Supreme court in this city and by his thorough knowledge of law, unflinching courtesy and fairness commanded the respect of every lawyer, litigant and juror who appeared before him.

CRIME HITS NEW DIAMOND MINES IN SOUTH AFRICA

Daring Holdups, Murders and Frequent Fights Are Occurring With Alarming Frequency.

Cape Town.—Free fights, murders and robberies are occurring with alarming frequency on the Lichtenburg alluvial diamond diggings. Since the recent rushes thousands of diggers have assembled in the vicinity and among them are ex-criminals who appear to be reaping a rich harvest.

There have been several cases of daring holdups. The latest was one in which a Welverdland digger named Freller was set upon late at night by a gang of native desperadoes who demanded money. He refused, upon which they set upon him with sticks and robbed him of £19, leaving him seriously injured.

Information was given to the police and a posse set out to arrest the gang. They came upon them and the natives put up a fight with the result that the police were compelled to fire. One native was killed. The others were arrested.

Another incident occurred at a nearby field where a native was caught stealing a bag of "bananas" (discarded gravel after the first sorting). The owner fired and wounded the native slightly. The latter drew a knife and attacked the white man, killing him. While on the ground the native stabbed the injured man, who was taken to the hospital in a critical condition.

Hosiers Produce Most Honey; Eat Lots More

Indianapolis.—Despite the fact Indiana is one of the largest honey producers in the United States, its inhabitants consume about twice as much honey as its apiaries produce, according to C. O. Yost, chief apiary inspector for the department of conservation and secretary of the Indiana State Beekeepers' association.

Problems of the industry and the marketing of the honey were discussed by the beekeepers at a recent meeting of the state association. A larger per cent of Indiana honey is sold direct to retailer or consumer than prevails in any other large beekeeping state. Roadside honey markets and sales to retailers in the communities in which the apiaries are located result in keeping practically all of the honey produced in the state from entering the wholesale market.

The honey production of Indiana this year exceeded that of California and was approximately the same as that of Michigan, Yost said. Some of the Indiana producers in good years produce from 75,000 to 80,000 pounds of honey.

Loses His Spouse, Gets Another in 34 Minutes

Chicago.—Thirty-four minutes was the time it took a husband to rid himself of one wife and acquire a new one.

He was James V. Condinella, theatrical producer. On the stroke of noon his divorce case against Katherine Condinella was called before Judge Sullivan in the Superior court. Twenty minutes later the decree was signed on grounds of desertion.

The supporting testimony was given by Miss Beatrice Wilson, twenty-four, of Evanston. And before the ink was dry on the decree Miss Wilson went with Condinella over to the marriage license clerk. They got a license and she became his bride at 12:34 in the marriage court.

Leo Weisskopf, who was attorney for the plaintiff in the divorce case, served as best man and witness at the wedding.

"Say It With Women," Slogan of Advertisers

London.—"Say it with pretty women" is one of the slogans brought out at the Olympia Advertising exhibition.

"Put a pretty woman beside your name in the newspapers—whether you make nuts and bolts, penknives or motor cars—and you have every body noticing you, which is the first step toward buying," advertisers say.

To carry out the idea, each of the 16 national and international advertisers who placed exhibits at the show were represented by a pretty girl.

"Tell the women," the experts explained, "as they are the world's spenders and the ones to whom all advertising must be directed. Women spend 50 per cent of the world's money, directly or indirectly. Men make the money, but women spend it therefore talk to the women."

808,870 Seals Counted by U. S. on Pacific Isle

Seattle, Wash.—Uncle Sam has just finished his annual report on the count of fur seals spending the summers on the Pribilof Island rookeries. A total of 808,870 animals up to August 10 were counted, an increase of 47,500, or 6.25 per cent, over last year.

This summer 263,596 pups were born on the islands, but there was an unusual death rate among the young seals. Halfbreeds were given 50 per cent three-year-old males for future breeding reserve. This marking will last for several years.

A total of 27,000 seals were killed this summer for pelts. Next year, should market prices remain stable, it is possible 50,000 hides could be absorbed by the fur trade without injury to the rookery herds.

6% DIVIDENDS have been paid on Home-Savings Co. Savings and Loan Association for every 10 years for shares in the new series. Now is the time to subscribe for shares in the new series. Call at the office, No. 2 EAST STRAND.

Husta's Quintet Undeclared on Kingston Court

Local Team Adds Another American League Team To Its List By Defeating Nick Harvey's Rochester Central, 35 to 23.

Nick Harvey's Rochester Central team, which has been one of the most successful in the American League, was defeated by the Kingston Quintet, 35 to 23, in a game played at the Kingston Armory on Thursday night. The game was a real battle, with the Kingston boys showing great spirit and determination. The score was as follows:

The first half of the contest with the Rochester Central was the hardest time for Kingston. The score ended in their favor 15-7. George Yerkes, who was the star point collector of the game and clinched the honor in the first half by a contribution of five markers. Husta, Herlihy and Kintz each dropped the leather through the hoops for three apiece in the opening session while Pete Bruck's throw from the free-throw line raised the score to the 15 points. The Rochester boys could not seem to fathom Kingston's passing work during the half and were rather weak on their own throwing ability.

In the second half Rochester made themselves more at home on the court and correlated 18 points. Their efforts however to start a regular scoring rampage were stemmed by Kingston with George Yerkes and Sig Makofski playing a big part. The former rolled up eight points during the session while Makofski who arrived at the armory from Albany in time to enter the second half tallied seven. Kingston surpassed their scoring ability of the opening session by registering twenty markers in the second half which ended 35-23 in their favor.

Hudson River Classic June 9

New York, Jan. 20 (AP)—With the selection of June 19 as the date for the 1928 Poughkeepsie regatta, the Intercollegiate Rowing Association avoided a possible conflict with the dates assigned for the Olympic try-outs.

The Hudson river classic will be held ten days earlier than last year by the decision of the board of stewards which met here. The stewards said the date was chosen after consideration of the probable tide and weather conditions.

While Columbia, Cornell, Pennsylvania and Syracuse will compete as the four members of the association, invitations will be extended to outside institutions, namely, Navy, University of California, University of Washington, Wisconsin, Princeton and Massachusetts Tech.

The invitations are for three events, varsity eight oared, junior varsity and freshman crews.

The Olympic tests will be held on the Schuylkill river, Philadelphia, July 6 and 7.

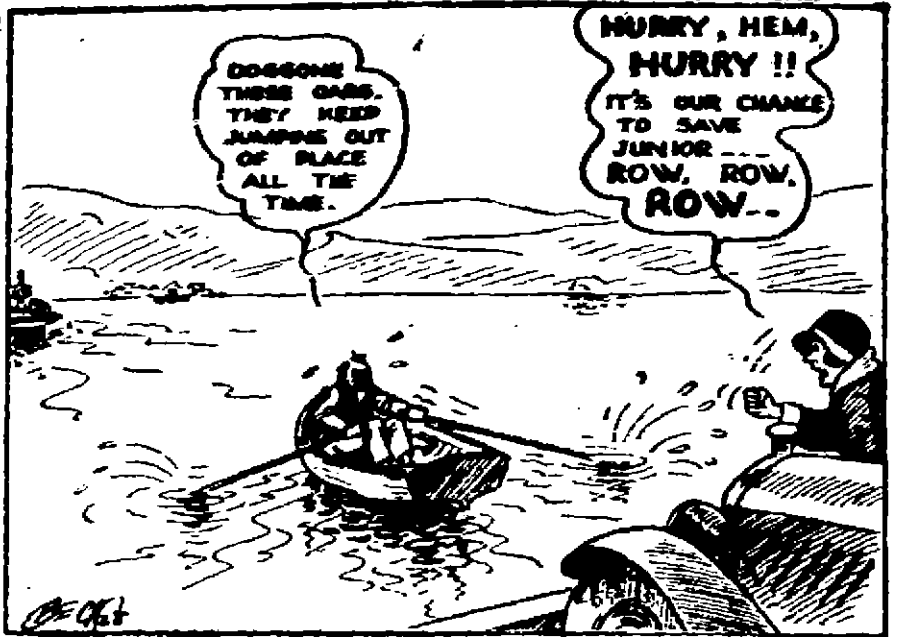

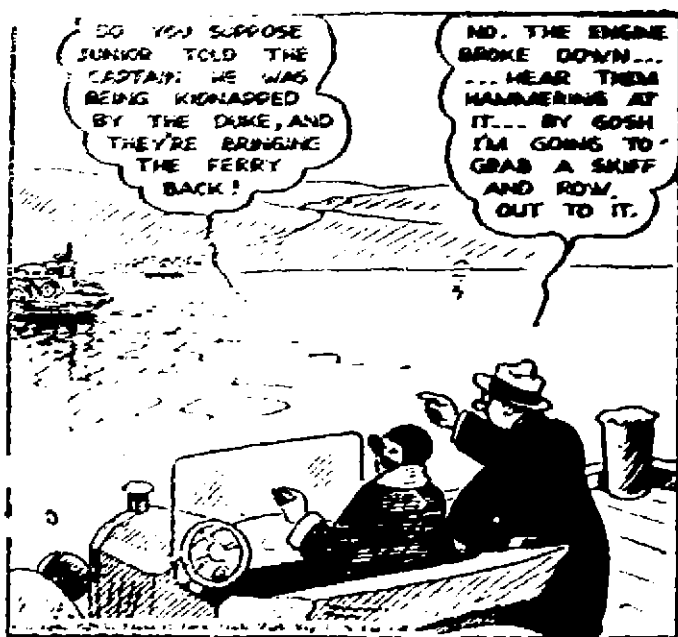

Four students at Ohio State university were dragged before the student court recently to answer charges of speculating in tickets for the Michigan game.

Miller Huggins wants at least one good player from the minors for next season. One good player in the big leagues is worth two in the bush, thinks Miller.

Owners Felix Hayman and Bud Moore, of Charlotte of the Sally loop, have completed plans for a new park and construction will get under way in the spring.

William E. (Kitty) Brannfield, former major league first baseman, and more recently a minor league manager, has signed as a scout for the Boston Braves.

GAS BUGGIES—Row—Row—Row.

Greatest Golf Game in 1908

Walter J. Travis, who is now one of the best known golfers in the world, was the star of the greatest golf game in 1908. He played the match with Willie Hunter at the Garden City, L. I. course. The match was a real battle, with Travis showing great spirit and determination. The score was as follows:

It was during the second round of the national amateur championship tournament of 1908, says the American Golfer, recounting the match, and the play went to 41 holes. Walter J. Travis, American pioneer of the game, and already a three-time champion, was then matched with Henry H. Wilder of Boston, a student who in that year had brought the intercollegiate championship to Harvard. But despite Wilder's promise to stand up to one expected film player, he was easily beaten by the mighty Travis, especially with the play being over the veteran's home course at Garden City, L. I.

Walter J. Travis.

Results of Industrial Games

The Central Hudson A quintet handed a 45-31 defeat to the Central Hudson B team and the Silk Mills beat the Artistics, 22-13, in a brace of Industrial League games at the Y. M. C. A. Thursday night.

The Central Hudson A team was in the lead at the end of the second half of their battle with the Central Hudson B quintet, 25-24. As the score indicates the session was a hard fought one and interested the fans to a great degree. The A team held the lead throughout the second session which resulted in the 45-31 win for them. Smith did the best scoring for the winners with 20 points. "Manager" Quinn of the B team duplicated Smith's scoring ability for his team.

The Silk Mills-Artistic tilt was a nip-and-tuck affair until the final minutes when the former broke loose and scored four markers over the shirt makers' 18.

KANTROWITZ BIG FIVE SUBMERGES PHOENICIA

In the second game, Thursday night at the armory the Kantrowitz Big Five defeated Phoenicia 67-14.

The Kantrowitz Five had an easy time beating the mountain boys. The snappy passwork of the winners was too much for the Phoenicia quintet. Merritt was the big point getter for the winners with 21 points.

The score:

Big Fellows Get Off

We all have our trials, but it seems as if the prosecution were extremely weak in some cases.

ARTISTIC GIRLS QUINTET WIN FROM FULLERS

At the armory court Thursday night a preliminary game was played between the Artistics and Fullers, both teams being composed of girls. The Artistics won by a score of 17-7. The superior floor work of the winners was a big factor in their victory. Schick was leading scorer with 10 points.

American Olive Growing

The region in which the olive may be successfully grown for the commercial production of fruit in the United States is not as great as for most frost-hardy fruits, and has been confined to portions of California and Arizona, although the trees will live and bear some fruit in portions of all of the southern tier of states of this country.

Friendship

This communicating of a man's self to his friend marks two contrary effects: for it redoubteth joys and cutteth griefs in halves. For there is no man that imparteth his joys to his friend but he joyeth the more; and no man that imparteth his griefs to his friend but he grieveth the less.—Bacon.

Connie Mack Aging

Connie Mack, manager of the Philadelphia American league baseball team, celebrated his sixty-fifth birthday yesterday the other day.

Mr. Mack is the oldest baseball manager in either major league, and is the only one enrolled in the first year of the American league still at the helm.

The Height of Goodness

To love the public, to study universal good and to promote the interests of the whole world, as far as lies within our power, is the height of goodness and makes that tender which we call divine.—Lord Shaftsbury.

Exclusive Style at Lowest Prices

ECONOMY has become a fashion here—yet nothing of smartness has been sacrificed to price. When you see our newest "Winter Resort" modes you will be surprised at the smart apparel one may choose at low prices.

Weisberg's
271 B'way St. Specialty Shop KINGSTON, N.Y.

Mary Astor

Mary Astor, the featured motion picture actress, chooses hats stressing dashing smartness, but expressing a simplicity of outline. Miss Astor wears several charming versions of Paris hats in the film, "No Place to Go."

Uncommon Sense

By John Blake

CHANCE

TO SAY that there is no such thing as luck, is merely to lie. Did that into the ears of young people, and sooner or later they will find out you don't know what you are talking about.

Then it will be impossible to convince them of a very important truth—which is that luck or no luck, they will stand a far better chance of getting ahead if they keep their minds on their jobs, and have a purpose in life than if they do not.

It always amuses, and sometimes irritates me when I hear some ponderous gentleman address a company of young men or women on life and success, and point to himself as proof that it can always be attained by following the copy book maxims.

Given a good mind and native industry, it can.

But given a poor mind, and a lazy disposition, it can't—and that is that. There are in the world plenty of people, who prosper, for one reason or another without much effort.

Some of them inherit fortunes, which are so sewed up by their benefactors that they cannot be dissipated. Some of them merely fall into fortunes—as the accidental discoverers of oil wells or gold mines, or the buyers of country property which increase enormously in value because railroads are run through them or cities extend out to them.

But first to last, by and large, it is energy and ability which counts, and for one person who succeeds by luck there are a hundred who succeed by their own efforts.

But leave out the luck element in talking to young people, and as soon as they discover you cannot honestly leave it out, they will discount everything you say and all your advice will count for nothing with them.

Why not admit that here and there people are born with fortunes on their shoulders—with money, or with some talent which can be turned into money.

Then show them by citing many examples, that these lucky people are but few, and that even they are not sure of keeping their luck, as is proved by the example of many rich young men who squander their money as soon as they get a chance.

Then make it clear that the one sure way to better oneself steadily is to plan a course through life, but it will mean steady improvement in the condition, and greater happiness and self-satisfaction.

If you, dear reader, are lucky, so much the better. Improve your luck and hold on to it.

If you are not lucky, no matter. There is no reason why you cannot go farther than many of the people who are, if you set to work with grim determination to reach some station in life worth gaining.

(Copyright.)

"A keen sense of duty is admirable," says Pondering Ponzelle. "provided it isn't merely a keen sense of the other fellow's duty."

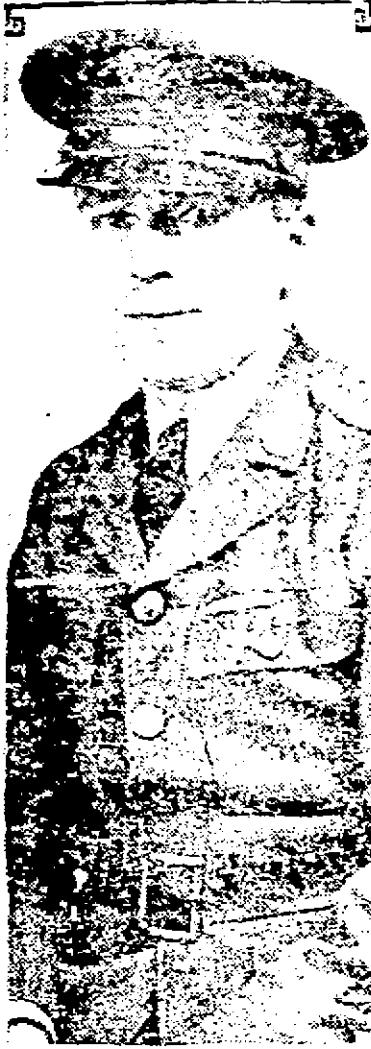

Another Proof

Most of us are optimists. We all yearn to build homes with big fireplaces, with the idea that the family will gather round them evenings.—Los Angeles Times.

Army Has "Perfect Man" But Marine Lad Has "It"

GEORGE W. BRANDT
(International Newsreel and International Illustrated News)

HERBERT E. SMITH
(International Newsreel and International Illustrated News)

THERE'S rivalry again between the Army and the Marines—instead of between the Marines and their traditional rivals, the Navy.

This time it's over the question as to which arm of the service has more of that quality denominated by Mme. Eleanor Glyn as "It." Anyway, the Army claims it has "the perfect man" in the person of Sergeant Herbert E. Smith, aged 27, of Newark, N. J. Smith, who's with the Army recruiting publicity bureau, passed a tough test covering moral, mental and physical accomplishments with a mark of 100 per cent. Smith's wife adds that she doesn't think he's exactly "perfect," but he comes near the 100 per cent mark as a husband.

The Marines offer for your inspection Corporal George W. Brandt of Chadron, Nebraska, who is in charge of the Marine guard at the S-4 Naval Court of Inquiry at Boston Navy Yard.

Brandt has had proposals of marriage from all over the country from girls who have seen him in the newsreels. He's not only handsome, but a dandy hand at sea.

May Lose Reward

Attorney-General Edward C. Turner of Ohio has formally announced his candidacy for the Republican nomination for governor. He is the first to throw his hat in the ring. He will base his campaign on his past fights for stricter regulation of public utilities and legislative lobbying, and for election reforms.

Seeing Beyond Self
It is easy to suspect that almost any other person's soul needs saving.—Arlinson Globe.

Flies on the Wing

"Time flies; you cannot—they go too fast," was a time-honored catch phrase; until the United States bureau of entomology did that very thing. House flies, it found, often made a journey of five or six miles in 24 hours. Some 234,000 flies of different species were obtained for the unique flight tests, which were conducted in Texas.

Charming Styles in Girls' Frocks

Every Possible Requirement Is Anticipated in Garb for Season.

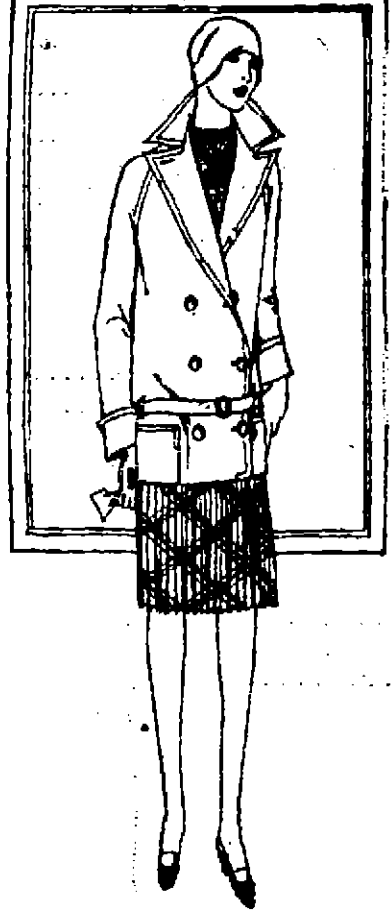

Many new and charming styles in different types of dresses for juniors are being shown for the season. There has rarely been a collection of such variety in design and material. Every possible requirement is anticipated, asserts a fashion authority in the New York Times. For sports, skating, tobogganing, riding, motor-boat, bicycling, golf, or whatever pastime the weather permits, there are smart little suits, ensembles and wraps. For afternoon tea dances, which are now so popular for young people at the fashionable hotels and restaurants, there are pretty, colorful, soft frocks, which are more or less formal in style. Many of them are, however, modeled after the sports suit. This occasional daytime dress is made in many different ways and of such variety of fabric as to serve for almost any affair other than the very formal.

Styles for girls between the ages of fourteen and eighteen are in a way copies of those for women. The "baby" type of dress, to which many have clung, has entirely disappeared, largely because of the popularity of the jumper suit, which has become an indispensable part of every girl's wardrobe. This comfortable little combination of sweater, or blouse and skirt, is found to be the answer for almost every purpose, from morning till night, and is becoming in almost every sort of material, from homespun to cloth of gold and silver.

Jersey for One-Piece Frocks. Jersey is the material in which some of the new one-piece frocks are made. These are usually quite simple. They are seen mostly with long sleeves, round necks, belts, and often little patch pockets. In one of the latest models the skirt is attached to the bottom of a plain bodice, which fits like a sweater. In such a manner as to give the effect of a two-piece suit. This frock, which is made of garnet wool jersey, has a waist which is buttoned from the top to the bottom. It is finished with a narrow scarf, which is tied close about the throat, leaving long ends hanging. The skirt is plain and is slightly gathered across the back, leaving a fullness in the front.

In a somewhat similar model the front of the skirt is made to flare by the insertion of godets which start from the edge of the bodice and widen toward the hem. A frock that is almost Quakerlike in its demure simplicity is made all in one color—a warm beige—the jumper being tucked to form a yoke and to make the wrists. The skirt is attached with several rows of shirring. Collars and a round collar of cream-white batiste are worn with this little costume.

Wool crepe is more in demand than any other fabric for one-piece dresses. It is a weave that is light in weight, easily handled in the making and exceedingly serviceable. Several well-known couturiers in Paris have used it in designing clothes for juniors which are graceful, simplified copies of gowns for women. One in this ma-

Jacket of Green Leather Makes Stylish Sports Wrap.

terial from Vionnet which will be worn for different occasions is made with the front all in one piece, like a panel, and clusters of buttons for fastenings at each side of the neck. The bodice is straight at the sides down to the hip line, where the skirt is attached with gathers. The bottom of the dress is cut in scallops.

Jenny's recent contribution to the wardrobe is a dress in which two materials are effectively combined. A yoke, round at the neck line and falling to the hips in front, and the upper halves of the sleeves are made of rose-colored crepe. The dress itself and the lower sleeves are made of black velvet. The rose crepe sections are finished with rows of small rose-colored beads.

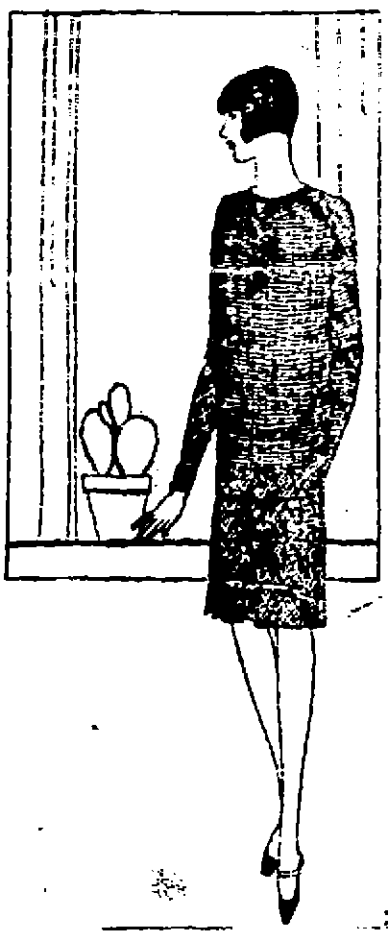

A practical, chic frock of American authorship is built on the lines of a Norfolk jacket. The skirt, which is very narrow, extends to the hem. Each of these is drawn through a slash in the dress at the waistline. There is a narrow strap belt at each side and a narrow band opening

collar which joins the two front panels.

Evening Dresses Are Dainty.

Evening dresses for juniors offer a costume of fairylike beauty this season. Many different materials are shown in the latest models, including transparent velvets, plaid and figured tulle, crepes de chine, flowered silk tulle, georgettes and tulle. A delicate evening dress which will be worn at the opera by a young lady who is to make her debut, is made of transparent transparent velvet. It is draped in graceful lines, which are edged to prefer on one hip. The back is pointed and slightly decollete and the bodice is sleeveless.

In the luxurious, sheer velvets now offered, the velvets are in all shades from the palest amber to a deep orange. They make lovely, supple and dignified gowns for the young women

Jumper Frock Is Popular Fashion for Young Misses.

who will soon be eligible for maturer modes. In a fetching little French model there is a sleeveless bodice made of velvet, which opens like a cutaway over a skirt of chiffon flounces, which is made in shades of yellow-green. Cheruit contributes a winsome dance frock. It also has a skirt of chiffon flounces in which are fastened small metal roses in silver and pink.

Coats Have Tailored Lines.

Wraps for girls are unusually smart this season. Those of all types have been greatly simplified, being made mostly with tailored lines. Sports coats and those for general service are made of the tweeds and other regular coatings, the most important of which are the Rodier fabrics in plain goods of the kasha variety, and the beautiful, richly colored mixtures and figured cloths. These are finished with fur collars and cuffs or with just a scarf of the coat material, which is especially successful in the Rodier costumes.

For evening there are luxurious coats made of the new rayon-metal brocades, which are elaborate and lively. Velvet is very fashionable and some of the prettiest evening coats for junior misses are those of silk or rayon velvet in natter, aquamarine and turquoise blue, buttercup yellow or geranium scarlet. Each is finished with a collar of slightly tinted fox.

Several different styles of jackets are shown in daytime dresses that will go well in practical ensembles. One is an eon jacket of brown velvet made to wear over a sleeveless frock or beige crepe. Another, designed by Cheruit, is a small sleeveless garment, a youthful version of the gilet, which is chic and striking. It is of navy blue velvet and made on the lines of a man's tuxedo and rounded in basque style at the bottom.

The frock that completes this costume is made of crepe de chine in a lighter shade of blue, with a gimp and long sleeves. It has a tiered skirt, as is so fashionable this season in gowns for women. One model is made of crepe satin with a variant of the bolero.

A striking novelty in fabrics for youthful gowns is the woven combination of rayon and wool. The yarn thread is light as down, but warm, and the rayon is interwoven to give it luster and a firmness of texture which is very advantageous.

For the sort of frock that is especially designed for indoors and for informal afternoons, smoking is having a decided revival. One attractive model is made with a deep neck yoke and cuffs with a frilled edge. It is striped about the hips. In this style the lightweight wool crepes, crepe de chine and voile are most suitable. It has also caused a renaissance of another old-time material, the pretty colored challis.

Bright silks are used in contrast to the goods of the dress in the smocked patterns and are unusually effective on white.

ELEANOR GUNN ON FASHIONS

SILE CREPES IN PASTEL TONES HEADLED BY ELEM. REMAINS THE FINEST CHOICE FOR LINGERIE—LACE REAPPEARS—FINE HANDWORK IS ALWAYS DESIRABLE

Paris—Women have learned to be particularly discriminating in the matter of lingerie. Of course, the silhouette must be preserved, so that the lingerie is forced to keep in accord with the frock. It is, however, in the little niceties that the average woman has become more fastidious. Even just now, when a decided effort is put forth to bring lace again into vogue, there is a preference in favor of the handwork rather than much lace. Materials may come, and materials may go, but crepe de chine appears to go on forever. Colors vary, but it is

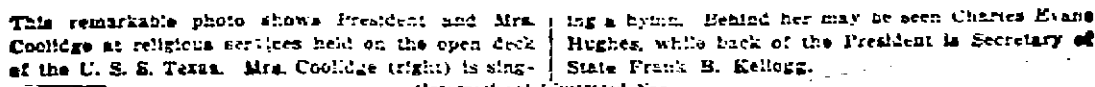

Diamond Patterned Silk Scarf in Tones of Brown and Yellow Are Worked into a Resort Version of the Two-Piece Dress Characterized by Snug Hipline Treatment.

safe to place pink and all shades of peach and apricot ahead of all others, with pink flesh or rose leading. Laces are seldom white; in fact, they are called upon to add a deeper

tone to the lingerie models of the moment. The use of two colors, in applique, insert, or binding effects, continues to be a practical and popular form of trimming.

Among the charming color schemes may be mentioned orchid with furmish binding. A really charming nightgown in these tones had a jabot of the crepe falling either side of the front opening, a continuation, in fact, of the wide collar. Little turn-over collars have become a feature of a certain type of night-d

lained at the home of Mr. and Mrs. Bessie Markle last Thursday evening. Refreshments of cake, coffee, ice cream and candy were served by Mrs. Markle and a very pleasant visit was enjoyed.

Alton Brown of New York has recently installed a Grammer & Tully radio for Miss Beatrice Gray at her home in Palenotowa.

Dr. Harker was called to treat Calvin Davis, who has been ill with cold and grip this week.

All are pleased to see Homer Hornbeck at home again after a serious operation at the Veterans' Memorial Hospital, Ellenville.

Mrs. Eugene Quick left on Sunday for a three weeks' visit at the home of her daughter, Mrs. Cornelius Irwin, at Catskill.

The pastor, the Rev. Mr. Cooley, is conducting special meetings at the M. E. Church. Accord. They began Monday evening, January 16, and will last for two weeks.

Mr. and Mrs. Cornelius Irwin and children of Catskill were guests of Mr. and Mrs. Eugene Quick on Sunday.

The Ladies' Aid Society will meet in the M. E. Church on Saturday afternoon at 2 o'clock, January 21. All members are requested to be present, prepared to sew and cut blocks for a quilt.

Mrs. Margaret Lawrence has received cards and letters from her daughter, Mrs. Russell Van Etten.

and granddaughter, Miss Theima Dew-
winter, stating they are enjoying the
winter at West Palm Beach, Fla.,
and that they had a pleasant and
safe journey.

Mr. and Mrs. Gilbert Quick of
Kramble are guests at the home of
Mr. Quick's parents, Mr. and Mrs.
Norman Quick, Saturday evening.

Alton Brown and Edgar Birge of
New York city were week-end guests
of Mrs. Agnes Brown.

Mrs. Amelia Marks of Rochester
Center spent Wednesday of last week
at the home of Mrs. Alton Brown.

Jacob Hornbeck has gone to
Bridgeport, Conn., and will spend the
winter with his daughter, Mrs. Susie
Weaver.

Those who called at the home of
Mrs. Calvin Davis last Saturday af-
ternoon were Mrs. Norman Quick,
Mrs. Hall Davis and Miss Kathryn
Brown.

Mrs. Melinda Gerseline has re-
turned home after visiting her sister,
Mrs. Abe Kelder, and family at Ro-
sendale the past week.

Mrs. Ernest Markle and Miss Baker
called at the home of Mrs. Agnes
Brown Tuesday afternoon.

Wants Volstead Law Strengthened

Washington, Jan. 20 (AP).—Legislation to strengthen the country's power in enforcing bootleggers and rum runners was urged today before a House Judiciary sub-committee by Assistant Attorney General Mabel Walker Willebrandt.

Mrs. Willebrandt endorsed a bill by Representative Stalker, Republican, New York, which would strengthen the Volstead act by providing a fine up to \$10,000 or imprisonment up to five years or both for illegal manufacture, sale or transportation of the liquor. The law imposes six months imprisonment or a fine up to \$1,000 or both for those offenses, she said.

Lease Slaughterhouse Home.

Mr. and Mrs. William H. Cantrill of Kingston have leased the Clarence Slaughterhouse on Finger street, Kingston, and will take possession shortly. Mrs. Cantrill is one of the owners of the new shirt factory in Kingston. It is expected to get the factory started about the first of February.

First Reformed Men's Club.

The Men's Club of the First Reformed Church will meet this evening in the chapel. George Hennessey will be the speaker. Arthur Floyd, pianist, and Mrs. Raymond Parrell, pianist, will render a musical program.

WOMAN WILL FLARE ANEW OVER NEW PRAYER BOOKS

London, Jan. 20 (AP).—The new prayer book, which has been revised by the House of Bishops since its rejection by commons, will be issued tomorrow and controversy within the church of England will flare anew.

The situation has been further complicated by the publication yesterday of the Minutes of the House of Commons, concerning the proposed revision of the Anglican and Roman Catholic Churches. These will undoubtedly be used by the evangelical opponents of revision to support their hostility to what they regard as the tendency of the Anglo-Catholics toward Rome. Although the recent papal encyclical seemed to nullify the advance of the Anglo-Catholics toward unity, Protestants believe further attempts will be made, and the position, as they view it, therefore remains critical.

Woman Released on \$500 Bail.

Sophie Diamond, who was sent to jail to await action of the grand jury by Judge Bruce Moore of Ellenville on a charge of grand larceny, was released on giving \$500 bail on Thursday. She was arrested in Brooklyn where she runs a dairy station, by Lieutenant Faber of the State Troopers and arraigned before Judge Moore on Monday. It is charged she gave a check to Henry Russell of Wawarsing in payment for ten cows and failed to make good the amount although promising to do so on several occasions. Vernon J. Kelder is attorney for Mr. Russell.

FACONNE VELVETS BRING NEW BEAUTY AND COLOR TO THE MODE

THOSE adorable printed velvets, faconne velvets, according to the French, what color and beauty have they brought into the life of fashion! To the dressmaker, to the couturier, the new sheer velvets are as much of an inspiration as the finely tuned instrument is to the musician, or canvas and brush to the artist painter. And what masterpieces in the way of gowns and wraps and ensemble costumes are our stylists creating of these wondrous velvets!

With every passing hour new revelations of the chic and the charm of velvet are made manifest. Especially are the daytime frocks of printed velvet capturing the fancy of women of fashion. Some of the smartest modes are two-piece, with skirt of plain and blouse of fancy, like that beguiling model worn by the seated figure in this picture. For the skirt the designer chose tobacco-brown transparent velvet, topped it with a velvet blouse plaid in shades of brown and deep cream. There's an inset ruche of ecru lace which makes this costume all the more fascinating.

Lace, by the way, there's most always a touch of it somewhere on the printed velvet gown, and such exquisitely fine laces, too. A hand-run ecru lace vestee with flowing cuffs of the same adds a note of prettiness to the afternoon frock pictured to the right. The faconne velvet which is the chosen medium for this dress is patterned in varying shades of tan and brown, an extra enlivening touch of color introduced in pipings of burnt orange with black. The snug-fitting yoke-top to the skirt merits special attention, because it accents the new trend toward a molded neckline.

Comment should be made also in regard to the hat of harmonizing velvet which complements this costume. The new slogan in fashion circles is, "With the velvet frock, a velvet hat."

One argument in favor of buying printed sheer velvet for the "dress-up" afternoon frock is that it requires so little trimming—just a touch of ecru lace, or a handsome buckle. Another item in its favor is, that because of the handiness of the fabric, the dress can be made along very simple lines and still be conspicuously smart—which should be a word of encouragement to the woman who makes her own frocks.

City League Games Tonight.

Three contests will be played in the City Bowling League tonight. The Livingstons will meet the Lyons team at St. Peter's; St. Peter's will do battle with the Immanuel at the latter's alley, and the Colonials will play the Y. M. C. A. team at the "Y."

Farmers have profited most by the town man's advice when they didn't take it.

Cake Sale Saturday.

The Ladies Auxiliary of Clinton Avenue M. E. Church will hold a food sale at the store of Rose and Gorman Saturday at 2 o'clock.

The Whitman Massacre

Marcus Whitman, pioneer and leader in the colonization of Oregon, was massacred by Indians at Wauilatpa, Ore., together with his wife, two adopted children and ten other settlers, November 29, 1847.

Samuel Adams Case Still on Trial

Negro Charged With Theft of White Man's Money in Downtown Section—Testimony Shows "Corn Licker" Was Seized—Conclude Case Monday.

The trial of Samuel Adams, a negro, on a charge of relieving Theodore Lafstad, a young white man, of his roll containing \$130 was continued Thursday afternoon and today before Judge Fowler and a jury in county court and will be concluded Monday. District Attorney Traver appeared for The People and Chris J. Flanagan for Adams.

Lafstad visited the place of Eva Williams, a negro known as "Joe Joe", at 31 East Union street in company with his friend, Richard Romeo. They said they had been directed to Eva's place by two local young men, Charles Hicks and Augustus Albright.

Eva Williams testified that it was following the loss of Lafstad's roll that the police raided her four-room apartment and arrested her for operating a disorderly house to which charge she had later pleaded guilty. She said her occupation was that of saleslady who sold paint, powder, perfume and other beautifying products and that she was not married. She lives on the upper floor at 31 East Union street where she had four rooms, three bedrooms and one "front" room. Four colored men resided with her and among them were William "Black Ace" McDaniel, Robert "Geech" Monroe, "Crack Shot" Nash and Gus Gordon.

"Geech" is the man who claims to have seen Adams lift the roll from Lafstad's hip pocket and leave the place. He said he told "Black Ace", who went after Adams and took the pocketbook from Adams's jumper pocket and gave it to Eva, who in turn gave it to Lafstad.

Counted \$100 in Roll.

Richard Romeo in his testimony said that at one time during the night in question he counted the money in Lafstad's pocketbook in the presence of Eva, Hicks and Albright and there was then \$130 in the roll. There had been \$250 when he and Lafstad had started out for the evening.

Sergeant James V. Simpson, the last witness of the afternoon, said he had counted the money at the city hall and found \$141. He had been informed that \$130 was gone.

At this morning's session Police-man Winfield Entrott testified that he had arrested Adams following the affair. He said Adams told him at the time he was placed under arrest that he had the pocketbook and McDaniel had taken it away from him and returned it to Lafstad.

County Clerk Walter G. Geroldak testified to the conviction of Adams in 1923 when he was sentenced for a term of from four years and six months to nine years at hard labor on conviction of first degree robbery. Seth Jocelyn, formerly night jailor at the county jail, testified Adams was the same Samuel Adams now on trial.

With that testimony The People rested.

Defense Calls Hicks. Attorney Flanagan asked why The People had not allowed Charles Hicks to testify after he had been sworn and taken the stand Thursday. Hicks was called by The People but was not questioned. When informed that The People were not going to call Hicks, Mr. Flanagan called him

as his witness, having also had him under subpoena.

Hicks testified that Lafstad had \$250 when he entered Eva's place. When he left he had \$130. He told of the details of the serving of drinks and of subsequent happenings that night. He said he had not craved as it was common before they were serving Hicks testified he had seen Adams take Lafstad's pocketbook from his pocket as Lafstad was going into another room to get his hat and leave. Adams then left the place. McDaniel followed and, according to Hicks, the pocketbook was brought back upstairs and given by McDaniel to Eva in the kitchen.

Says Hicks Is Hostile.

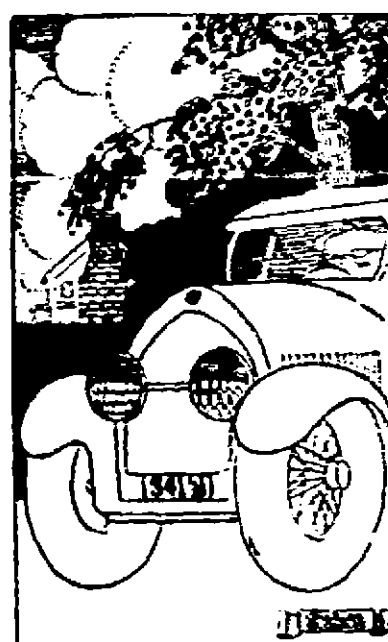

Several times during the morning session there was a clash between counsel. Hicks, who was a former client of Mr. Flanagan, was attacked by Mr. Flanagan who announced that although he had been compelled to call Hicks since The People had failed to call him, he was calling him as a hostile witness and several times attacked the testimony of Hicks.

Jurors not on the case was notified they need not return until Tuesday morning at 10 o'clock as the Adams case would take up all day in court on Monday. At noon court adjourned until 10 a. m. Monday.
